

giving wings to waste reduction

is our *greener future.*

**Waste Reduction Hero,
Phil O'Connell**
Manager, Safety and Environment,
St. John's International Airport Authority

Despite being in the business of flight, Phil O'Connell stays grounded on one principle: environmental stewardship. Phil is the leader of the St. John's International Airport Authority's staff-led green committee, who have partnered with Evergreen to establish a user-friendly recycling program. They also invested \$14 million into a central de-icing facility to ensure that de-icing activities have zero impact on our environment. They continue to plot environmental initiatives, and have set quite an example for airports worldwide: the sky should be the limit when it comes to waste reduction.
